PAINT BY NUMBER **ACTIVITY**

Major studies detail that there's a strong correlation between employee engagement, retention and the quality of team relationships. What better way to bring the team together than to engage in a social art experience for your next staff event? Sasha The Artist Studio offers **Paint by Number Corporate Team Building Activities**, as one of our DIY packages, that sparks fun, encourages creative teamwork and undoubtedly relieves stress!

This collaborative experience encourages each member of staff to contribute to one large painting thanks to a simple 'pick a number, paint by number' technique. It promotes collaboration, communication and problem solving to reveal the team's large masterpiece that can even turn into new office decor.

PAINT BY NUMBER **BENEFITS**

1. Collaboration - Staff members are encouraged to work in smaller groups where they are assigned group number(s) to seek out and paint. However, all groups must work together in order to complete the overall design. This not only promotes a sense of unity among team members, but it also allows them to bond and connect on a deeper level.

2. Company Advert- The masterpiece will serve as a great way to promote your company's brand and values, designed to showcase the company's logo, or even to highlight a promotional product or service. The final masterpiece can then be mounted as office decor, reminding everyone of this momentous occasion.

3. Community - This activity is also a great way to engage employees at all levels of the company. They are a fun and inclusive activity that can be enjoyed by people of all ages and skill levels. This allows for a diverse group of people to come together and create something truly special.

PAINT & SIP BENEFITS

1. Creativity - Painting allows team members to tap into their creative side and think outside the box. It encourages them to explore new ideas, experiment with different techniques, and find unique solutions to problems. This can foster a culture of innovation within the team.

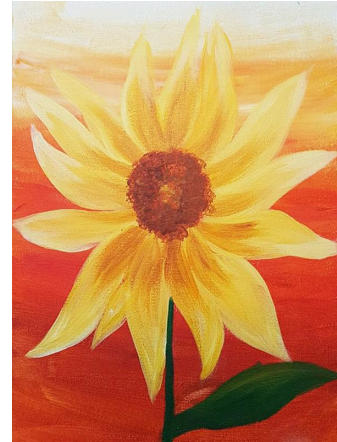

2. Therapeutic - Painting is a great way to unwind and relieve stress. It provides an outlet for team members to release any pent-up tension, temporarily step away from work-related stressors and relax their minds. This can help improve overall well-being and create a more positive working environment.

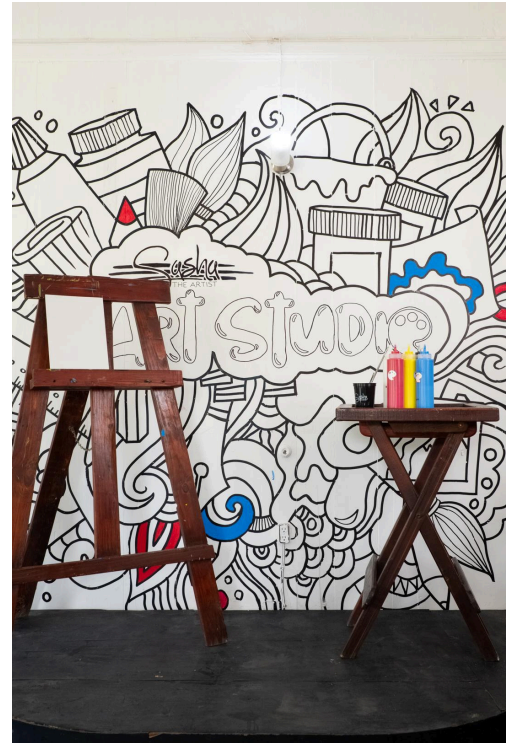

3. Socialization - Team paint and sip events provide a relaxed and informal setting for team members to connect and communicate outside of the office. These events break down barriers and improve collaboration, fostering a sense of camaraderie and strengthening team relationships.
